

## Oronoque Village, Stratford, CT CPR Training

April 13 2018, by andra DeBiase

My Grandma Sonya lives in Oronoque Village in Stratford and today they had their AED and CPR Training featuring Defibtech AEDs. She sent me some photos of the training with a message.

“OV Men’s Club sponsored AED training by Stratford EMS. Thanks again for being instrumental in OV acquiring the defibrillators.”

She came to me a few months ago saying the recreation center was looking into getting a defibrillator. Thanks to information I got from Donna and passed on to my Grandma, she was able to go to the OV board and pass on the information on to them. They received one as a donation and another at a discount price.

***They are excited to have Defibtech products just in case.***
