It's in Hebrew...but ..explains that the pupils in school have saved the life of the teacher with our Lifeline !!!  
The other unit came later with the ambulance bit our unit did the work . We're so happy ...

Defibtech's exclusive distributor for Israel and Palestine has reported that pupils at a school saved the life of their teacher with a Lifeline AED.

David Cygler, President of Hadar, served as an intelligence officer in the Israeli defense forces. Graduated as a paramedic. Functioned in Israeli red shield as the Human Resource Manager, and regional manager of the southern region.

The above video is in Hebrew, and it tells the story of this save.

The Lifeline AED can be seen at 2:33 minutes. The other AED that can be seen in this video is the AED used by the ambulance services. But it was a Lifeline AED used by the students that saved the teacher's life.

See message below from David Cygler at Hadar. David has been a Defibtech distributor since 2005.

*"Hi*

*It's in Hebrew...but ..explains that the pupils in school have saved the life of the teacher with our Lifeline !!!*

*The other unit came later with the ambulance bit our unit did the work .We are so happy ...*
